

“Knowledge Creates Confidence – Confidence Creates Success”

COURSE SYLLABUS

Microsoft Certified Professional (MCSE)

Course Information

Microsoft Certified Professional (**MCSA—Microsoft Certified Solutions Expert**) is a 420 clock hour course that is designed to introduce the student to the advanced level knowledge of the infrastructure of the Microsoft Windows Server platform.

Course Focus and Emphasis

Participants will learn and be exposed to advanced Microsoft Windows server environments and infrastructures including, but not limited to: Server Upgrades, Virtual Machine Management, IP Configuration with address management and name resolution, Active domain services, Advanced AD DS and AD DS topology, and advanced system recovery

Special emphasis is placed on the student successfully passing all certification examinations.

Course and Career Objective

Graduates will be employable in either the public or private sector as Network Administrators and/or Computer and Information Managers, Computer Security Specialists, and Data Recovery Specialists.

Prerequisite

Enrolling students **must** possess a MCSA Certification
